

Deskwork AI

Automate everyday workplace tasks with AI

Lovable Project Report

What it is

Deskwork AI turns rough input into finished, reviewable drafts.

3 tools

Email, meetings
and planning in one
workbench

Human-in-the-loop

Every output is a
draft for the user to
review

No data stored

Single-session tool
with no accounts or
history

Three tools

Smart Email Generator

Professional emails with tone and audience adaptation

Meeting Summariser

Notes into summaries, decisions and action items

Task Planner

Daily or weekly plans with priorities and time tactics

How it works

1. User picks a tool and enters rough notes
2. Strict prompts with fixed output sections guide the AI
3. Structured draft is returned for review
4. Missing facts are flagged, not invented

Next

Soon

Saved templates, export to DOCX/PDF, editable drafts

Later

Direct integrations, per-user limits, usage analytics

Routine desk work, drafted in seconds — reviewed by a human, every time.
